

I listen to a national christian radio service caled K-LOVE and read on their website that proposed changes involving LPFM could eliminate the local service that I receive. Stations like K-LOVE are a definate help to the community because they provide more than just entertainment or news. Yes, the bulk of their broadcast is Christian music but they also have pastors and counselors on staff to talk to people in difficult circumstances and they take calls all day long from those in our community who need a listening ear and encouragement. Losing the uplifting message that K-LOVE broadcasts in favor of anything else would definately be a loss to our community.
